INTEGRAL SOLUTIONS

Experience

- We have more than one million hours of software development experience and we keep adding five hundred hours to our experience each working day.

- Our senior most engineers are involved in software development since days of Ms DOS (Disk Operating System). From CBI to GUI, from punch cards to PDAs and from batch files to web services. We have witnessed some of the significant stages of information technology revolution.

- We started working as freelancers in 1992. By 2000 partnership firm was established. And we are operating as a registered Private Limited company since 2003 doubling our team size almost every year...

INTEGRAL SOLUTIONS

Kudos

" The team went above and beyond to meet our needs and requirements. They were flexible and worked with us, supporting us practically around the clock! The communication was consistent and open.

Bottom-line, they worked hard to fully understand our requirements and vision, kept us up-to-date, and delivered on time and with high-quality deliverables at a very fair price! I highly recommend team Exalt! " - **Kyle Lawton** (peerVue.com)

" Team at Exalt Integral Solutions were in a class of their own. We communicated for the duration of the project on daily basis, and work was never late or not in order. Their work ethics is out of this world. I can refer Exalt to anybody looking for great service, quality work and great personal relations. All team members were excellent. Use them, you won't be sorry. " – **Wemar Raats** (Adboys (Pty) Ltd)

" Great to work with, very available and responsive. Willing to go above and beyond to ensure customer satisfaction. " - **John Reitano**

" Scores:

10 - I am very impressed with the way I was approached by you.

10 - I am very impressed with your efforts to understand my requirements. I am also impressed by your relentless effort to make sure I am happy.

10 - I am very impressed with the team's technical knowledge and coding.

10 - This is a great team of people. " - **Will Patton** (Motion Marketing)

Join Hands With Us

- Quality Work On Time : We consider quality as the most important parameter and integral element of our work. Our Software Quality Assurance (SQA) Team ensures that each product goes through rigorous testing and is fully stable before it reaches to masses. Our Project Management Team ensures project's timely delivery.

- Communication & Availability : India is second largest English speaking nation. This helps us to serve English speaking people better. We maintain high online presence and are happy to answer your queries any time.

- Better Value For Money :   We charge clients reasonably without compromising on quality. We add value to our clients by delivering quality work at lesser cost. This helps them to be more competitive.
